

# Classic Quartz Flooring

## COLOUR CHART

### Indoor - Outdoor Classic Quartz Flooring

Quartz Carpet® Classic flooring range is a non-slip seamless quartz floor well suited for both interior and exterior applications. Quartz is well known and loved for its many esoteric healing properties and remarkably this imported smooth alluvial stone measures 8 out of 10 on the MOH scale of hardness where a diamond measures 10.

Quartz Carpet® Classic uses solvent free and VOC free resins as per international health guidelines. The finished floor is hygienic, stain resistant, thermally efficient and has a low carbon footprint. The scratch resistant surface will not be dented by heavy furniture and it is easy to clean and maintain.

Mixed and laid in situ by licensed installers the Quartz Carpet® Classic range of flooring seamlessly accommodates curves and patterns. It can be applied directly over a screeded or tiled surface and has an installation height of 6mm.
