CRETECOTE

Thin skim-on floor coating

A coloured, thin film cement based floor covering which is versatile and durable. It is a two coat system which produces a 1.6mm smooth decorative finish ideal for internal domestic renovations. Comes complete with powder and catalyst as a twin pack.

BENEFITS

- Thin skim-on coating perfect for renovations
- Interior use only
- Application with a steel trowel
- Versatile application – can be used to coat counters & vanities
- Reaches a compressive strength of 35MPa after 28 days (this is solely dependent on the substrate)

SPECIFICATIONS

Suitable surfaces	Wood or steel floated concrete floor slabs or screeds (interior only) New surfaces should be allowed to cure for at least 28 days Tiles - as long as the necessary preparation steps are followed to ensure adhesion. Refer to coating over tiles datasheet
